Ceiling mounted cameras, flip image vertically from  button.

You can receive notifications on motion and/or sound detection and adjust the sensitivity.

Select:
Settings ->
Devices ->
Your Camera
Manage ->
Detection Settings

CAMERA DETAIL

refer to bnd.com.au for full warranty details.

RESET THE CAMERA

To restore the camera back to factory settings:

1. Hold the Reset button for about 10 seconds with the camera powered on.
2. Release the button and wait about 30 seconds. The camera will automatically restart, and restore factory settings.

CHANGE WI-FI NETWORK

First, setup the Smart Hub on the new network and then:

1. Open the Smart Hub phone app and remove the camera from the Smart Hub.
2. Reset the camera using the instruction above.
3. Re-follow the instructions "Adding the Camera".
